THE MEMPHIS DAILY APPEAL SUNDAY. AUGUST 25. 1878 city. It takes a newspaper man to condense a volume of good advice into a short para--The Howard association furnished fortyseven nurses to the sick yesterday. The list of the sick to whom these nurses were furnished reached our office at so late an hour last night that it was impossible to publish it in to-day's issue. This, however, was no fault of the Howards, who have an immense amount of hard work to do up to a late hour

-At a public meeting held at Jackson, Mississippi, on last Wednesday, for the pur-Mississippi, on last Wednesday, for the purpose of protecting property, and to devise means for the care of the sick, the following resolution was adopted: "That all citizens are requested to abstain from walking the streets after ten o'clock at night, and that all B streets after ten o'clock at night, and that all persons found on the streets after that hour shall be subject to arrest and punishment, if sufficient reasons cannot be given for being out." The mayor said that one of the firebells would be rung as the signal for all to -The following is from the Cincinnati retire from the streets.

Enquirer, of Thursday: "A letter was received by Dr. O. E. Newton from his cousin, Dr. W. S. Newton, of Gallipolis, in which he says: 'Great excitement prevails here on account of the towboat J. A. Porter, with yellow the town. She lies just below the town, with ten or twelve sick, one or two in a dying condition. I may have something further on this, as the mail has left, and I may write more as the mail has left, and I may write more to-morrow. Monday Noon.—Two more deaths during the night from the Porter. She is disabled in machinery. The men are discouraged and frightened. We have a bad couraged and frightened. We have a bad -A special dispatch from Grenada to the

Cincinnati Enquirer says: "An old New Or-leans nurse says she don't believe this is yellow fever. What it is she cannot say, but it is certainly more fatal and harder to conquer han the seven st yellow-fever. Many negroes fer to die rather than go to the hospital This is a pestilence, not an epidemic, and will not yield to physic. The New Orleans doe tors are confounded at its malignity, and often after the seventh and muth days, and where great precaution is taken, the patient dies within an hour or two. There is great lack of see, lemons, beef tea and, in fact, a kinds of medicines and Lourishments. Reid, I barrel sweet potatoes. VALUE OF DISINFECTING. Let Everybody Disinfect, and Above All Things, the Health Board Should Continue to Disinfect.

EDITORS APPEAL.—The writer has several question asked. Why has disinfection been iscontinued? Are we not, in our zeal to get | ple and of the indigent and helpless into camps refuge, to some extent losing sight of the value and importance of dism'ection, as a means of holding in check the dreaded scourge. That much good has been accomplished by the free use of lime, carbolic acid and other disinfectants, is evidenced by the great modification in the type of the disease. That Remain Undelivered, and which The first eight or ten cases that occurred a proved fatal within thirty-six to forty-eigh hours after being taken. Our oldest and | From an Occasional Correspondent of the Appea wisest physicians were appalled at the of the disease, and there to be but little or no cause to hope for the recovery of any who were in earnest and pressed with great vigor by our most excellent health-officer, and we ing tendency of the disease to yield to treat-ment. Cannot this most gratifying fact be ascribed with better reason to disinfection than any other cause? If so, our efforts in that direction should not for a single moment | The sea-gulls are flying in flocks about be relaxed, but should, if possible, be in-

creased with the growing urgencies of the hour. Let it move on hand in hand with the stern work of depopulation until this invisible and terrible enemy to human life is brought way of sea shell and coral on the beach to under control by the twin agencies of starva- low. We are having the warmest weather tion and strangulation. If carbolic acid, sul-phur, pine-tar and other powerful disinfectants stirring from six o'clock in the morning unti cannot be had in sufficient quantities, we twelve, but at noon a breeze springs up from have an unfailing supply of lime; let it be freely used. August 24, 1878. A CITIZEN. HOWARD.

The Lesson of a Great Life-Temperate in all things, he Braved Death in Every Form for the Benefit of his Fellowmen.

ELKLAND, TIOGA CO , PA., August 19 .-The members of the Howard association who are doing so much noble work at present among the afflicted in Memphis should know omething of the character and habits of the celebrated philanthropist whose name their association bears; besides, in a time like this, it will be an incalculable benefit to those who road, over which New Orleans trains wer read it. He proved, beyond doubt, that a APPEAL editorial, of Saturday, the sevennot alone preserves health, but gives an immunity from disease of all kinds, no matter how malignant nor how pestilential the climate one may live in. He probably was more exposed to the influence of pestilential the climate more exposed to the influence of pestilential causes than any other human being that ever lived. "In the period of sixteen years," says his biographer, "he traveled between fifty and seventy thousand miles for the sole purpose of relieving the distresses of the most wretched of the of the most wretched of the human race. The fatigues, the dangers, the privations he underwent or encountered for

the good of others, were such as no one else was ever exposed to in such a cause, and such as ever exposed to in such a cause, and such as few could have endured. He often traveled and there is no earthly reason why yellow several nights and days without stopping, over roads almost impassable, in weather the most inclement, with accommodations the meanest and most wretched. Summer and in the tropics. It is born of filth; if Havana winter, heat and cold, rain and snow, in all was kept as clean as it should be, there would their extremes, failed alike to stay him for a moment in his course, while plague, and pestilence, and famine, instead of being evils that he shunned, were those with which he we, of New Orleans and Memphis, of Mobi sult of this man's experience and observation, that he earnestly advised others who from the use of animal food. This it cannot be supposed he would have done had

from what he had seen in others. And it must be remembered that Howard's opportunity to test the correctness of this opinion was neither brief nor limited, but the most extensive, varied and long-during ever expevalue. His biographer further says: 'The ural advantages are far greater than at Jack-

after all his experience, near the close of his life he made the following record in his diary: "I am fully persuaded, as to the health of our bodies, that herbs and fruits will sustain nature in every respect far be-yond the best flesh." Such was this noble man's experience, and I trust that all who read it will lay it to heart and ponder well over it.
